Location3 Media Makes Inc5000 List Second Year in a Row

Location3Media Ranks 1255 with Three-year Sales Growth of 302%

DENVER, CO – August 21, 2008 – *Inc.* magazine ranked Location3 Media on its 2008 list of fastest growing private companies in America. This year marks the second Inc5000 List and the second time that Location3 Media has been recognized. Jumping nearly 300 spots from last year, Location3 Media reports a 302% growth in sales in the last three years. Location3 Media also ranked 22 on the Top 50 list from the Denver-Aurora, CO metro area.

“At a time when the word *recession* is on the tip of everyone’s tongues, we’re pleased to see so many businesses doing so well,” says Andrew Beckman, president of Location3 Media. “It’s definitely a relief to see our name in the top half of that list, but we’ve also worked extremely hard for it. We have a dedicated staff and innovative campaigns to thank for all our success.”

Besides growing financially, Location3 Media has also expanded its portfolio of services and employee roster. Doing business through three divisions—SearchAdNetwork, Local Search Traffic and Hispanic Targeting—the company now employs 25 individuals specializing in [pay per click management](#), SEO, media buying, social media marketing, web analytics, [post-click optimization](#), graphic and web design, copywriting, business development, finance, local map listings management and many more.

A supplement to the long-standing Inc500 List, Inc5000 was created last year to recognize small and mid-sized companies that make up the backbone of America’s economy—independent-minded entrepreneurs. *Inc.* magazine ranks companies based on revenue growth from 2004 through 2007. For a more comprehensive look at the nation’s entrepreneurial environment, companies are also measured by industry and metro area. Out of the 26 industries recognized by *Inc.* magazine, the category in which Location3 Media is listed, Advertising and Marketing, is one of the five largest.
